**Neurocise® – A mind-brain-body based (NeuroTechnic) intervention to...
“Take Your Clients Literally” & Update Client’s Models of the World.**

As a “healing arts professional”:

- How do you decide what intervention to utilize or do with a client?
- What influences your choice as to technics (system or systematic) or therapeutic approach you take to address client’s so-called “problems”/issues they bring forth in therapeutic encounters?
- When the client tells or shares with us their “story” & puts into words, phrases, sentences, language what they are experiencing, do you take them “literally” & go about helping them shift or change the very strategies involved or the structure of reality-making they possess or “brain states’ responsible for the impact or effect they are experiencing?
- What are prerequisite & essential skills required to work with the client’s “brain-body-being-behavior” providing a more wholistic & brain-based approach that meets them at their “model of the world” & updates who they are & how they behave & perform from the inside out?

These are just some of the questions we will begin to answer with the Neurocise® 4-Day workshop with Elvis Lester, MA, LMHC, NCC, MAC, ACMHT. Elvis will enthusiastically introduce you to neuro-evaluational, neuro-linguistic & neurophysiological (mind-brain-body) processes you (& your clients) have been doing “unconsciously & non-consciously” most all your life (just outside conscious awareness) leading to the make-up of the very issues & solutions & profound states you have experienced in your life. Through practical demonstrations, exercises & poignant presentations to “explain & train your brain”, Elvis will help you to identify solution states, their elements & strategies to mental-emotional issues & their subsequent physio-energetic impacts & trance experiences.

In this certification training you will learn how to:

- Detect internal processes involved in the creation & construction of internal representations responsible for the formation & dynamic modeling of states (internal) & strategies leading to so-called mental health issues & “problems” as well as desired response patterns.
- Experience personal changework of mental-emotional states “reading-resolving-releasing-responding” in more productive ways – “thinking” (creating), feeling & doing well-formed & desired responses vs. remembering past negative experiences (recalling) & “stuck states”.
- Utilize quintessential Eye Accessing & Eye Movement (Scanning) Patterns & original NLP Eye Accessing Cues to uncover detailed sensory-based (visual-auditory-kinesthetic, etc.) modalities/submodalities (features & distinctions) & begin to learn how to use Eye Movement & Eye Positions to work literally & more elegantly with the very fabric & make-up of thought-forms responsible for the creation & re-collection of both non-productive & productive brain states.
- Induce powerful & pleasurable mental-emotional-physical states that allow access to creative & generative processes for healing (making whole) previous addictive programming (“out-of-control” & ill-formed conditions). Guided Eye Movement Strategies – GEMS™
- Use the power of transformational language to lead clients into more optimal & maximal learning experiences (Neurocise) to complete & repeat the learnings they require to resolve the very “mental-emotional issues” for which they seek assistance.
- Use iVIBES™ Modeling & Identity-Engineering™ to work with meta-techniques at the “higher-order/levels” directly engaging value-assignment & meaning-making on purpose – improving Evaluations & Relations that people generate to their detriment & benefit.

Join Elvis Lester at the Neurocise® 5-Day Workshop & learn how you can take your skills to the next level & work even more directly with the very “elements of excellence” involved in not only loosening old & outdated “realities” & stuck states our clients so often experience but also evolve their mental-emotional & behavioral performance strategies (modeling) in the first place.

Location: Neurocise® Studios – 600 S. Magnolia Ave., Ste. 160, Tampa, Florida 33606

Call (813) 221-5466 to make your reservation and register for the program. **Cost: \$1,390**

Approved Training by: Earn 30 CEUs – Division of Medical Quality Assurance – State of FL CEU Provider #BAP289 – CE Broker #50-1190 – Exp. 3/31/2023.
